Antibodies A Laboratory Manual Second

Antibodies: A Laboratory Manual (Second Edition) The now classic lab manual Antibodies, by Harlow and Lane, has been revised, extended, and updated by Edward Greenfield of the Dana-Farber Cancer Center, with contributions from other leaders in the field. This second edition of the manual is an essential resource for molecular biology, immunology, and cell culture labs on all matters relating to antibodies.

Antibodies: A Laboratory Manual (Second Edition)

As Dr. Greenfield notes in his preface to this second edition: "The Antibodies manual provided our laboratory with guidance in the form of protocols and recommendations for setting up a hybridoma facility. Everything we needed to know to make a monoclonal antibody was all there, neatly packaged in an easy-to-understand book...the second edition is intended to provide the necessary information and protocols to assist investigators with their first monoclonal antibody effort as well as to ...
