Bergson Henri University Of Warwick

Henri Bergson was the philosopher who, in an intellectual career stretching from the 1880s to the 1930s, provided a rigorous account of the real efficacy of time (which he called duration). This allowed him to conceive of creativity as the source of both psychological freedom and of life as an open system. Bergson identifies in the history of Western thought the demotion of time to the status ...

This study is an exploration of the place of perspectivism in the philosophy of Henri Bergson. His work is compared with that of Thomas Nagel in terms of the mutual concern of these two philosophers to reconcile our increasingly objectivist and impersonal understanding of reality with the perspectival apprehension of the world that living and conscious beings instantiate.
