Generator overhauling means clean Engine of Generator and Replace old parts of engine with some new one. Generator overhauling procedure is a long time task....

Generator overhauling procedure | Diesel Generator set ...
On a large diesel, about 60% of the blowby enters the crankcase by going past the piston rings. This occurs when the pressure differential in the cylinder bore is the greatest compared with the pressure in the oil pan. Thus, blowby is highest during the engine's expansion (power) stroke and, secondly, during the compression stroke.
