Triumph Street Triple

Triumph Daytona 955i:

Introduced in 2006, the

Triumph Daytona 675

is a three-cylinder

sport bike, and the

smallest of the

Triumph triples. Built

by Triumph

Motorcycles, it

replaced their four-

cylinder Daytona 650.

Daytona And  
**ManualsLib**

The Triumph Daytona 675's inline triple is tuned for race-winning peak power and torque of 128PS at 12,500rpm and 74Nm at 11,900rpm. But with a naturally wide spread of low-down and midrange grunt from the three-cylinder layout, the Daytona 675 is as happy taming roads as it is setting lap records.

When Triumph

Acces PDF

Triumph 675

introduced the Daytona 675, it became popular for a number of reasons but primarily because it was different. While the rest of the supersport category relied on four cylinders and 599cc, Triumph ditched a cylinder and made the remaining three spit out 675cc of air.
