Re: 15hp yamaha- how to tell year? It is not a 2001. That serial number belongs to a motor of model year 1994. S in this case stands for the shaft length, short, and is not the letter for model year. The serial span for the 15D model in 1994 is from 115096 to 124184. This engine with nr 116288 fits right in there..
